

Have You Donated To Your Local Defense Council Fund?

VOLUME 19—NO. 17

Recent Operations

By Paul Bardin

Directors of the Bank of Pahokee held an election Wednesday afternoon and named Rupert Mock president of the institution. I think the directors made a wise move when they named their new president. I believe the thousands of folks in the Lake Region are glad to have Mr. Mock as president. He has been with the bank for 12 years in various capacities. He knows the banking business. He knows the conditions of the Lake Region. He should make an outstanding banking official.

It is a good news to the folks in the Lake Region to know that the majorities of the bank stock is again in local hands. Harry M. McIntosh is again a large stockholder in the bank. Under the new set up, Mr. McIntosh will hold an official position in the bank, but his many friends will be pleased to know that he is again a stockholder.

To like to add my personal congratulations to members of the Pahokee Lions club for the splendid manner in which they are carrying out their scrap metal drive. With the drive only started, they have already sold enough scrap to replenish the coffers of the Pahokee. Canal Point Defense Council to the tune of \$62.25. The Lions are doing an excellent job and deserve the wholehearted co-operation of all citizens.

Vacationers are returning. It won't be long now until the Glades area will be in the midst of another farming season. Growers are busy running down weeds and plowing. A few sacks of beans have been planted. Last year several hundred acres were planted soon after the 20th of August. Early fall beans last year brought a good price. Many growers haven't forgotten those prices and will, naturally, try to have some beans ready for market the latter part of September or first of October.

The labor situation in the Glades for the coming season still looks gloomy. It looks like the major portion of the growers are going to trust to luck and hope that enough labor will be available to get the crops in. If this is true, there won't be enough help to harvest the crops and some arrangements are made in advance.

Board Plans For Coming Term

The Palm Beach county school board is session Tuesday afternoon to a large amount of business. With the opening of school only a few weeks away it is necessary for the board to get things lined up for another successful term. George Shriver was named principal of South Bay school. Mrs. M. J. Shriver was named principal of the Belle Glade cafeteria and Mrs. G. W. Byrd was named to the position of principal of the school. Mrs. Marvin Unwin was named secretary for the Pahokee school and Clara Elizabeth Rines was named secretary for the Canal Point school.

Mrs. Margaret Roach was granted leave of absence.

FOR VICTORY BUY UNITED STATES WAR BONDS AND STAMPS

Pahokee Lions Make Splendid Showing In Their Effort to Salvage Scrap Metal

Joe Hatton Heads Drive For Pahokee Civic Organization

The Lions club of Pahokee is out on a sincere drive of thanks from the community for the manner in which they have taken over scrap collection in the Pahokee and Canal Point section.

The Lions have divided the section into five zones and a house to house canvass is being made in an effort to gather in all scrap possible.

The Lions are gathering the scrap, selling it for cash, and donating every dime to the defense council. One area, on Bacon Point road, has turned in enough scrap to bring \$62.25 and this check has already been turned over to the defense council to assist that body in meeting expenses.

Rupert Mock, president of the Lions, appointed Joe Hatton, a new member of the club to head the scrap drive and that he has done a good job so far is putting it mildly. He has worked wholeheartedly with his crew of Lions in salvaging every pound of scrap to be found around the homes already canvassed. To Joe should go a hearty round of commendation for a job being well done.

Other zones of the Pahokee and Canal Point section are expected to bring forth almost as much scrap as did the Bacon Point area. If the Lions do as good a job in other sections as they did in the first area combed for scrap the defense council treasury will have a few dollars more which to buy the necessary supplies.

J. B. Cox Talks To Rotarians

J. B. Cox, Canal Point school principal and chairman of the Rotary information committee of the district, gave an interesting talk to members at the regular weekly meeting Thursday.

The remarks of Rotarian Cox were directed to new members who were thoroughly enjoyed by old members as well.

Dr. W. C. C. Slawson, a former member of the club, he reported that the Lions are well satisfied with his new assignment with the air corps at Tampa. P. P. DeLoys reported on the two blackouts held during the past week. He asked for full co-operation of merchants in carrying out blackouts in the future.

Buster Willis, charter member of the club, resigned after an unbroken attendance record of nearly 13 years. He is working between Boca Raton and West Palm Beach and is unable to make up his attendance.

Buster Willis, stationed at Camp Claiborne, La., spoke briefly of experiences he went through in the newspaper business into Uncle Otto Blech reported on the diamond ball game between the Lions and Rotarians. Another friendly rivalry between the two clubs is on for this afternoon at 6:30.

Buster Willis Visits in Glades

J. M. "Buster" Willis, member of Uncle Sam's army and located at Camp Claiborne, La., arrived in Pahokee this week for a few days visit with friends. He is on 15 day furlough and reports army life arough with him. According to Buster, Camp Claiborne has a splendid staff of officers. He was told in his praise for the excellent food and the understanding of those in command at the Louisiana camp. He is former editor of the Belle Glade Herald and spent some time in Belle Glade visiting old friends who were glad to see him.

LOST: A stop watch. \$1 reward if returned to C. A. Scott, Canal Point, Florida.

MOUNTS WANTS FORMS FILLED IN AND RETURNED

County Agent M. U. Mounts is mailing out forms to all growers in the Lake Region requesting information in regard to needed labor this fall. It is urgent that growers fill out these forms and return to the office of county agent at once.

MR. HOWELL BETTER

W. A. Howell, who suffered a fractured rib in a fall from a scaffold two weeks ago, is recuperating satisfactorily.

Number of Phones Show Growth

It is easy to judge the growth of the community by the increase in number of telephones. In the fall of 1934 Belle Glade had a total of 43 telephones and Pahokee had 125.

The new fall directory is just off the press and there are 238 numbers listed in Belle Glade and 273 for Pahokee.

Florida Agricultural Stations Are Vital to State, Despite Lee's Belief

Experiment Station in Our Section Has Only \$50,000 Yearly

Col. J. M. Lee, state controller, in an outburst before the state budget board recently pointed a finger at the agricultural experiment stations of Florida and said they were an "extravagant expenditure."

This newspaper, located in the heart of the vast agricultural industry of the state, look excited when it comes to pointing out the "extravagant expenditure" in the agricultural activities of the state.

The annual report on agricultural experiment stations, as compiled by the University of Florida, furnishes us with a great deal of interesting information, showing the work of the stations throughout the state. It is splendid record and we suggest to commission that taxpayers' money is being spent on "expensive experiments."

The total appropriation for operation of the stations pointed out by Florida was \$545,929.00. Of this amount \$50,309.00 or 9.2 percent was appropriated for the Florida Experiment Station located at Belle Glade. With less than 10 percent of the state's appropriation for agricultural stations, the Florida Experiment Station has made an outstanding record.

According to the report and from observation by a representative of this newspaper it is found that during the past year a splendid work has been carried on at the Belle Glade station. This work increases possibility of better crops and improvement of varieties there is a plant breeding program for the production of new varieties adapted to the Glades area.

In addition to the testing and improvement of varieties there is a plant breeding program for the production of new varieties adapted to the Glades area.

Rationing Board in Pahokee Establishes New Hours for Your Convenience

Members of the Pahokee-Canal Point Rationing Board have been giving full time to their work and this week announced new hours for the future.

The office of the board will be closed to the public except during the following hours:

MONDAY 2 p. m. to 4 p. m.  
WEDNESDAY 2 p. m. to 4 p. m.  
FRIDAY 2 p. m. to 4 p. m.

Any business pertaining to any rationing of any commodity will be taken up during these specified hours. No rationing business will be conducted at any other time. Please do not call on members of the board at their homes, on the street or by telephone.

C. T. Santee, Don Hillier and C. C. Hull, members of the board, extend their thanks to the public for their kind co-operation during the past and seek co-operation in the future in observing the newly established hours.

Thanks Folks For Old Scrap

17,500 pounds of scrap. A check for \$82.35. The officers of the Pahokee-Canal Point Defense Council replenished. That's "Sample".

That's the report from the Pahokee Lions club's first zone covered by the crew gathering in old scrap.

Thomas Padgett, in charge of the Bacon Point Road zone, said yesterday he'd like to publicly thank the folks for the splendid manner in which they cooperated. In commenting on the manner in which the citizens responded, Mr. Padgett said: "Those folks sure did an excellent job. They dug up scrap from every conceivable source and brought in not less than 17,500 pounds. We'd like for them to know that we appreciate their efforts."

It was a case of youth teamed up against those who are graying around the temples. They were referring to the demolition ball game staged Tuesday afternoon between the Pahokee Lions and the Pahokee Rotarians.

To say that the Lions had the advantage in the "night" sound like we were making excuses. But, the final score was not so bad after all. The Lions garnered 16 runs and the Rotarians could only gather in 14.

It wouldn't be fair to say in this article that the Lions had the Rotarians out to 4 until the last inning or two when a relief pitcher was sent in by the younger crew—a pitcher who took an "over" in which he pitched a "ball" over the fence. The Rotarians might get a whack at 'em. Any way, during the last couple of days the aging Rotars gathered in 10 runs—enough to bring the score to the point where it didn't look so bad.

Paul Bardin talked to the members of the "Consumer's interest" Tuesday night in the Pahokee public library. Mrs. Fanny Smith, president of the organization, presided over the meeting.

Paul Bardin talked to the members of the "Consumer's interest" Tuesday night in the Pahokee public library. Mrs. Fanny Smith, president of the organization, presided over the meeting.

Pahokee Youths Return from Camp

"Two Pahokee youths, Merle Smith and Robert Vaughn, have just returned from a six week stay at Camp St. Leo in Pasco county. Both boys report their period at camp an enjoyable one which each won many honors.

Smith merited special honors in wrestling, aquatics, handball, basketball and rifle shooting. Robert Vaughn won awards in diamond ball, archery and rifle shooting as well.

Both were recipients of awards of merit from the National Rifle Association in which Camp St. Leo has a member club. Smith received the medals and ranking of Sharpshooter, and Vaughn of Promark.

Other activities enjoyed by the two local boys at camp were basketball and the bookkeeping department of the Bank of Pahokee, has accepted a position with the Wauchula State Bank. Miss Prue has been on her new job for two weeks.

STUDIES IN MIAMI

Miss Marie Phillips of Pahokee, is in Miami in a business school where she is studying the intricate workings of various business machines.

GOING TO NEW YORK

Miss Helen Vaughn, of Pahokee, is spending a few days in New York where Mr. Bailey is attending to business.

MITCHELL—YOUNG

Of interest to a large circle of friends is the recent marriage of Dr. Wilbur C. Young and Miss Cora Mitchell which took place last Friday night at the Hyde Park Methodist church in Tampa with Chaplain Merritt O. Slawson performing the ceremony. Mrs. Young is the daughter of G. W. Mitchell of Aberdeen, Md., and has been employed as a nurse at the Everglades Memorial hospital in Pahokee for the past 15 months. Dr. Young is well known in the Lake Okechobee region, having practiced medicine here for the past 21 years.

Dr. and Mrs. Young will be at their home in Port Mayaca after the first of September.

Youth Conquers Age in Ball Game

It was a case of youth teamed up against those who are graying around the temples. They were referring to the demolition ball game staged Tuesday afternoon between the Pahokee Lions and the Pahokee Rotarians.

To say that the Lions had the advantage in the "night" sound like we were making excuses. But, the final score was not so bad after all. The Lions garnered 16 runs and the Rotarians could only gather in 14.

It wouldn't be fair to say in this article that the Lions had the Rotarians out to 4 until the last inning or two when a relief pitcher was sent in by the younger crew—a pitcher who took an "over" in which he pitched a "ball" over the fence. The Rotarians might get a whack at 'em. Any way, during the last couple of days the aging Rotars gathered in 10 runs—enough to bring the score to the point where it didn't look so bad.

Paul Bardin talked to the members of the "Consumer's interest" Tuesday night in the Pahokee public library. Mrs. Fanny Smith, president of the organization, presided over the meeting.

BPWC Group In Regular Meeting

Members of the Business and Professional Women's Club met in their regular monthly meeting Tuesday night in the Pahokee public library. Mrs. Fanny Smith, president of the organization, presided over the meeting.

Two Blackouts During the Week

The Pahokee, Belle Glade and Canal Point areas had a blackout Tuesday night. The order came through around 10 p. m. and a splendid showing was made by all home owners and business men.

There were a few spots where auxiliary policemen and air raid wardens hid to go in and turn out the lights, but in an advanced country like ours, such things were not necessary.

A committee, composed of Mrs. Jackie Rine and Mrs. Wilda Morgan, was named to look after collection of dues. In order that all the members of the club publishing office may be placed in the libraries of Pahokee and Belle Glade it was necessary to name a committee to take care of the work. Mrs. M. J. Dunaway and Mrs. Helen Alspaugh were named by Mrs. Smith on this committee.

The next meeting will be held in Belle Glade on the first Tuesday in September under the direction of Mary Hall and Ruth Peckles.

Burns Remodels Cleaning Plant

T. L. Burns, proprietor of Burns Dry Cleaners in Pahokee, started this week remodeling his building. Under the remodeling plan Mr. Burns will take in the other half of the Zimmerman building for his use.

New windows are being placed in the front of the building—much larger windows than served before. The old porch will be torn from the front and a stucco front will replace it. When completed he plans to erect a large sign.

Miss Marie Phillips of Pahokee, is in Miami in a business school where she is studying the intricate workings of various business machines.

VISITS IN CAROLINAS

Miss Helen Vaughn, of Pahokee, who has been visiting relatives in Atlanta has gone on to the Carolinas for a visit.

Rupert Mock Named New President of The Locally Owned Bank of Pahokee

H. M. McIntosh Becomes A Major Stockholder of Bank

In a deal consummated this week the major portion of the stock of the Bank of Pahokee became locally owned and locally controlled. Harry M. McIntosh, former president of the bank, Rupert Mock and E. F. McIlwain, became the majority stockholders. All three live in Pahokee.

At a meeting of the board of directors of the bank held Wednesday afternoon new officials were chosen. Rupert Mock, cashier of the bank, was named its new president. Mr. McIntosh, who has been assistant cashier, was re-elected to that position.

The election of Mr. Mock as president of the financial institution will meet with the approval of the many friends and patrons of the bank. Mr. Mock has been associated with the bank for 12 years, starting in the bookkeeping department soon after he left school. He has been Saturday school teacher and during the past few weeks has served as the active head of the institution.

Bringing the major portion of the stock under local ownership will be a fact welcomed by all residents of this area. Mr. McIntosh came to Pahokee a little more than six years ago as president of the bank. Three years later he held the position of vice president. That he has again become one of the major stockholders will be welcome news to his hundreds of friends in the Lake Okechobee Farming Region.

It is felt that these prices will be satisfactory to the theatre going public, as there has been a considerable drop in the price of the inconvenience involved in the penny change making.

Admission Price Raised A Penny

Malcolm Millar, Personnel Manager of the Gold-Dorow Theatre, announces the management of the Prince Theatre, Pahokee, and the Everglades Theatre, have found it necessary to make a change in admission prices.

Effective Saturday, August 8th, at the Old Show the following price schedule will go into effect. Sunday, Monday, Tuesday and all Owl Shows the price of admission will be advanced from 35c to 40c, tax included. Wednesday, Thursday, Friday and Saturday performances admission prices will remain the same 11c, with the tax included.

It is felt that these prices will be satisfactory to the theatre going public, as there has been a considerable drop in the price of the inconvenience involved in the penny change making.

BPWC Group In Regular Meeting

**OIL IS AMMUNITION - USE IT WISELY**

"Mexican Spitfire Sees a Ghost." Showing Wed. Thurs., August 12-13 at the Prince theatre and Friday, August 14 at the Everglades theatre.

**A RIDGE OF LAUGHTER**

**SPICED WITH SPOOKS**  
Another new and mirth provoking adventure of the explosive Carmelita and her well meaning relative, Uncle Matt, is found in "Mexican Spitfire Sees a Ghost," which teams the Latin bombshell, Lupe Velez, and the top comedian, Leon Errol.

Sixth in the series of hilarious comedies, the current film is laid in a supposedly haunted house which is the secret hide-out of

enemy aliens engaged in the manufacture of TNT. The amazing situations which develop when Errol masquerades variously as Lord Epping and Epping's valet, and Carmelita represents herself as a maid in her own home, provide a splitting comedy.

Charles "Buddy" Rogers is seen in his regular role of Carmelita's husband and Elizabeth Fielding plays Aunt Della.

Sir James Barrie, famous author, was godfather to Wendy Barrie, popular film star. Her real name is Margaret Jenkin and the writer gave her permission to use his first name when she entered pictures.

CAGNEY TAKES OFF on the most thrilling role of his career! Jimmy plays the top role in "Captains of the Clouds." Showing Sun-Mon. August 9-10 at the Prince theatre and Tuesday, August 11 at the Everglades theatre.

GLYNIS JOHNS—a comparative newcomer to the screen, is featured in sensational "The Invaders." Showing Sun-Mon. August 9-10 at the Everglades theatre and Tuesday, August 11 at the Prince theatre.

**GLYNIS JOHNS IS NEW STAR**

Glynis Johns, a blonde, 18-year-old dramatic actress, plays the feminine lead in "The Invaders," new adventure hit. To the young lady's credit, she is not overcom-

ing by such high powered company as Laurence Olivier, Leslie Howard

and Raymond Massey. Comparatively unknown in America (although some may recall her performance as a neurotic child in "South Riding" a few years ago), she is in talk of bringing her here.

John Farrow, directing "Wake Island," has been named to the United States Committee of Southern California as a representative of Australia, the land of his birth.

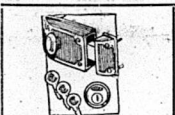

More than 80 percent of "The Invaders," which stars Laurence Olivier, Leslie Howard and Raymond Massey was made in various parts of Canada. The remaining 20 percent was shot in the Denham Studios outside London. None of the adventure story, however, is laid in England. The entire locale is either along the coast of

**TO**

**Shoot More We**

**Must Talk Less**

The daily use of long distance and local telephone service throughout the "war busy" Southeast is mounting in such increasing volume that telephone lines and central offices are becoming seriously congested with the burden of calls.

We cannot relieve the congestion by adding to our facilities because the materials needed are now being used in the manufacture of weapons of war (a machine gun in action uses in four minutes enough copper to make a mile and a half of telephone wire), so in order to keep present telephone facilities available for vital war calls we must talk less.

With your help, which we are confident you will voluntarily give, we can keep long distance and local telephone lines clear for the urgent messages of war agencies and industries engaged in war work.

**How You Can Help**

**Long Distance Calls**  
Make day the most necessary long distance calls. Be brief. Place your calls before 9 a. m. between noon and 3 p. m. 5 and 7 p. m. or after 9 p. m.

Stay near your telephone after you have placed your call. Plan what you want to say and so avoid the necessity for another call.

Whenever possible, call by number.

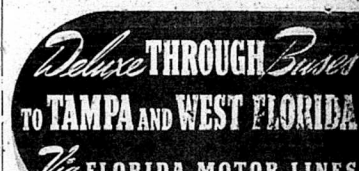

**Local Calls**  
Use your telephone sparingly—avoid unnecessary calls. Be sure to replace your receiver on the hook.

Look up numbers you are not sure of and help avoid the calling of wrong numbers. Make your conversations brief. Teach your children good telephone habits.

**Bill's a bigger man than his dad was in '17**

**I'M TALLER—10 LBS. HEAVIER!**

WAR DEPARTMENT figures show that today's average soldier is nearly an inch taller and ten pounds heavier than in 1917. That's a great gain for one generation. While food experts were discovering new vitamins and better diets for Bill, electric research was working out ways to refrigerate his food so it would be fresher, safer, cheaper. While doctors were developing new serums and new drugs, electric laboratories were improving X-rays, the X-ray lamp, etc.

Even before Bill was born, electric servants freed his mother from much of the work of washing, cleaning, cooking—so she and her children could be healthier, happier. Actually, these advances can be credited to the American Way at work—free men producing the things that other men want and need—for everybody's benefit.

The electric industry grew that way. A few men organized a company. Many men invested their savings. Good business management multiplied jobs, extended service, lowered rates.

Today, the average American home pays only 10¢ a day for all electric service—and gets about twice as much electricity for that time as it did 10 to 15 years ago. And America's booming war industries have the world's greatest electric power supply on tap!
